Upcoming Events & Deadlines

1. Dean David Williams has volunteered to be the team captain for Team Engineering for Pelotonia 2018. On that note, Pelotonia 2018 will take place **August 3-5, 2018**. Every contribution is meaningful and puts us one step closer to our goal and the efforts of the James Cancer Hospital and Solove Research Institute. 100% of every dollar raised through Pelotonia goes to funding Ohio State researchers who work towards curing cancer. There are multiple ways to get involved and help fundraise for this important initiative. You can learn more about joining as a rider, a virtual rider (like me!), or as an event volunteer by *visiting* <https://pelotonia.org/register/>. You can help support Team Engineering by making a donation through the following link: <https://yourpelotonia.org/profiles/public-team-profile?UserKey=190578>
If you would like to join Team Engineering and have any questions, please contact Laura Alvarez @alvarez.147@osu.edu.
2. The 2019-2020 Fulbright U.S. Scholar Program Core competition is now open. The Fulbright Scholar Program offers teaching, research or combination teaching/research awards in over 125 countries for the 2019-2020 academic year.

Opportunities are available for college and university faculty and administrators, as well as for professionals and many others. Interested faculty and professionals are encouraged to visit the Catalog of Awards to learn about opportunities in the field of [Engineering](#) along with other fields.

- The application deadline for most awards is August 1, 2018. U.S. citizenship is required. Grant lengths vary in duration; applicants can propose projects for a period of two to 12 months, as specified in the award description. [Flexible options](#) may also be available.

3. As a reminder, anyone who is eligible to conduct research activities at Ohio State, including those who are involved in designing, conducting or reporting of research or in the administrative oversight of research activities, needs to complete the RCR training. This training needs to be completed by June 30, 2018. The training does take some time, so it is recommended that you not leave it until the last minute.

Articles of the Week (This week's water cooler talk – don't miss out!)

- We are in a bit of a transition between generations right now. We have been working with the Millennial generation for about the last 10 years or so, but we are creeping into what is being called generation Z. Unfortunately, there doesn't seem to be much written on them yet. Regardless, here are some early resources for them. In short, we are seeing some opposing views on this generation, but generally there seems to be momentum around personalized learning for this generation.
